SUMMARY

Finance and Data Science student at Oregon State University (Actuarial Science minor) interested in applying data analysis and quantitative modeling to financial markets and risk. I bring hands-on experience building financial statements for a family business, self-taught valuation models in Excel, and six apps I designed and published solo.

EDUCATION

Oregon State University, Corvallis, OR — Expected June 2029
B.S. Finance and Data Science · Minor in Actuarial Science — GPA: 3.96

- **Relevant coursework:** Python for Data Science, Calculus, Discrete Mathematics, Technical Writing

Lakeridge High School, Lake Oswego, OR — Graduated 2025

- AP Statistics, AP Microeconomics, AP Macroeconomics; perfect free-response scores on both AP Economics exams
- National Honor Society · Oregon Seal of Biliteracy (Spanish)

EXPERIENCE

The Agness Company – Agness, OR — July 2024 – Present
Bookkeeping, Finance & AI Integration — June 2025 – Present

- Built the company's balance sheet and income statement from its financial records
- Support budgeting and tax preparation using the company's financial data
- Design AI workflows and agentic automation to streamline the company's day-to-day operations
- Helped draft changes to how the Forest Service maintains roads in Curry County, which were adopted

Equipment Operator & Crew — July 2024 – Aug 2025

- Operated a roller to compact rural roads; assisted with demolition, septic installation, carpentry, and landscaping

Financial Modeling Projects – Personal (Excel)

- Built a fully dynamic LBO model of OpenText (OTEX) with a debt schedule and cash sweep, returning a 17.3% IRR and 2.2x MOIC; my LinkedIn write-up reached ~59K impressions
- Modeled a hypothetical $64.8B Mondelez/Hershey merger, including sources & uses and accretion/dilution analysis (32% dilutive in year one despite $1B in synergies)
- Valued SpaceX for a potential IPO with a segmented DCF across Starlink, launch services, and Starship
- Designed a hypothetical $100M income fund and stress-tested its options overlay across price scenarios

iOS App Developer – Personal Projects

- Designed, built, and published 6 App Store apps solo using SwiftUI and Xcode
- Created educational apps including SigmaQuest: Learn Statistics, which teaches core statistics concepts
- Integrated in-app purchases and ad monetization, and managed App Store review and submission end to end

LEADERSHIP & ACTIVITIES

Treasurer, Pi Kappa Alpha – Oregon State University — Fall 2026 – Present

- Manage chapter finances; helped launch and run the chapter's philanthropy fundraiser and donation outreach

Coach, Lake Oswego Composite Mountain Bike Team — 2nd season

- Coach cross-country racers one-on-one, lead advanced-rider workouts, and train first-year coaches to plan safe rides

SKILLS

Technical: Python (NumPy, Pandas, Matplotlib) · Excel (LBO, M&A, DCF modeling) · Financial statements · Options pricing & greeks · SwiftUI / Xcode · AI workflow automation

Transferable: Data analysis · Financial reporting · Written communication & technical writing · Leadership & coaching · Project management · Bilingual (English & Spanish)
